Made Sakadea Jagath Baratha

Junior Information Security Engineer | Security Engineer | PHP Backend Developer

Badung, Bali, Indonesia | sakadea2018@gmail.com | +62 858 4734 5721 | linkedin.com/in/made-sakadea-jagath-baratha/

PROFESSIONAL SUMMARY

Junior Information Security Engineer with hands-on experience in penetration testing, vulnerability assessment, web security testing, incident analysis, and backend development. Skilled in writing clear vulnerability reports, coordinating remediation with development teams, and building Python 3 automation to improve security reporting workflows. Background in PHP, Laravel, MySQL, GitLab CI/CD, web infrastructure security, and bug bounty reporting.

CORE SKILLS

Penetration Testing | Vulnerability Assessment | Web Application Security | Security Testing | Vulnerability Reporting | Incident Analysis | Bug Bounty | Python 3 Automation | GitLab CI/CD | PHP | Laravel | MySQL | REST API | Backend Development | Web Server Security | Network Security | Computer Forensics | MikroTik

WORK EXPERIENCE

Undisclosed | Junior Information Security Engineer | Jan 2024 - Present

- Perform penetration testing and vulnerability assessments for web applications, backend services, and supporting infrastructure.
- Analyze security weaknesses, validate reproduction steps, assess impact, and document findings in structured vulnerability reports.
- Create remediation-oriented reports covering risk context, affected components, proof of concept, recommended fixes, and retest notes.
- Develop Python 3 automation scripts to create GitLab issues from security findings and support CI/CD-based remediation workflows.
- Coordinate with development teams to track vulnerability remediation progress and verify security fixes after patching.

Djoin Id | Security Engineer | Oct 2022 - Aug 2023

- Performed security testing on web servers and infrastructure to identify vulnerabilities, configuration issues, and exposed services.
- Reviewed website security issues and supported the creation of patches for identified vulnerabilities.
- Conducted incident analysis for web and infrastructure security events and assisted with remediation activities.
- Prepared technical notes and communicated security risks to relevant teams for follow-up actions.

Djoin Id | Software Engineer | May 2022 - Sep 2022

- Developed application features and fixed bugs in Laravel-based web systems.
- Supported backend development, debugging, and maintenance using PHP, Laravel, and MySQL.
- Worked on application stability improvements and assisted with issue resolution during development cycles.

Institut Teknologi dan Bisnis STIKOM Bali | Junior PHP Backend Developer | Aug 2019 - May 2022

- Built a guardianship scheduling module and supported the SION academic information system API using PHP.
- Maintained backend functionality for academic workflows, data handling, and system improvements.
- Collaborated on application updates and backend fixes for internal academic information services.

CERTIFICATIONS

- CyberWarFare Labs - Cyber Security Analyst (CSA) | Jun 2024 - Jun 2026 | Credential ID: a2c4ebf7 | Certificate URL: https://app.kajabi.com/certificates/a2c4ebf7
- MikroTik - MikroTik Certified Network Associate (MTCNA) | Mar 2022 - Mar 2025 | Credential ID: 2203NA6882 | Certificate URL: https://mikrotik.com/training/certificates/b226882c501ed7cf3e10
- Lembaga Sertifikasi Profesi Informatika - Network Administrator | Mar 2022 - Mar 2025 | Credential ID: 1817/LSP-INF/III/2022
- ForeSec - Foresec Certified in Computer Forensic | Feb 2022 - Feb 2024 | Credential ID: 0322-008722
- ForeSec - Foresec Certified in Computer Hacking | Sep 2019 - Sep 2021 | Credential ID: 1019-025890

AWARDS AND BUG BOUNTY RECOGNITION

- BSSN VVIP Program - Badan Siber dan Sandi Negara (BSSN) | Dec 2024 | Certificate: SERT.013.BSSN/D2/VVIP/02/2024
- Bug Bounty Bali Digital Festival II 2023 - Pemerintah Provinsi Bali | Dec 2023
- Bug Bounty Jinon - Jinom | Dec 2022
- Bug Bounty Wegodev - Wegodev | Dec 2022

EDUCATION

Institut Teknologi dan Bisnis STIKOM Bali | Computer Systems | May 2016 - Apr 2022

SMK Wira Harapan | Rekayasa Perangkat Lunak | May 2013 - May 2016

CO-CURRICULAR ACTIVITY

Registration Team | Hari Kebangkitan Teknologi Nasional (Hakteknas) | Aug 2019 - Oct 2019

- Built a registration system using PHP and Laravel.
